Giga RSS Reader

Hits: 2,736

Description: Giga RSS Reader is powerful online RSS reader. All RSS url's stored in a database so you do not need to add everytime rss feeds to your database. In amin page you may add, delete and modify any sources. In default page, script displays selected source in HTML file. You may use thi script to publish custom content from another web sites. Script works with only valid RSS files and uses MS Access database to store the feed's urls.
