FaceRSS

Hits: 2,057

Description: FaceRSS is a simple JavaServer Faces (JSF) component that allows you to display news from a specified URL source in one configurable JSP tag. This allows you to place news feeds on a Web site in a very simple way. It uses rsslib4j and therefore supports RSS version 0.9x, 1.0, and 2.0 with Dublin Core and Syndication namespaces.

Resource Specifications

Version:	0.1
Platform(s):	linux, windows, freebsd, osx, sun
