ClickBank PHP Scripts

Hits: 1,688

Description: WebmasterInABox.net has various scripts for ClickBank merchants -

* ClickBank Download Protector: This is the most popular script, to protect ClickBank downloads from hackers and pirates. Uses extremely secure proprietary algorithm combined with ClickBank's own algorithm, to provide you with a fool-proof, hack-prrof download protection.

* Affiliate Link Cloaker (Fr`ee)

* AffTrakker - To sign up and manage your ClickBank affiliates through your own site

* C.A.P.E - ClickBank Affiliate Program Enhancer - to allow your affiliates to redirect their users to any page on your web site, and not be restricted to just the single default landing page that CB provides you (the merchant) with.
