# PHP Import Gmail, Yahoo, Hotmail, AOL Addresses Hits: 8,317

**Description:** Import addresses and names from Yahoo, Gmail, AOL, MSN and Hotmail address books using PHP and cURL. Much faster and more reliable than other similar scripts on this website. Demos available for download. MSN and AOL contacts import scripts added recently. Works with international accounts for hotmail and yahoo (hotmail.co.uk, yahoo.co.uk and others). Support for Live Mail (MSN/Hotmail) has been added. Proven quality at very competitive prices. More than 100 websites already using this script.
