Vtunnel.com - Free cgi-proxy

Hits: 78,423

Description: Vtunnel.com lets you browse to websites blocked by your school, employer, or ISP, or are otherwise unavailable from your current internet connection.

Unlike most free proxies, Vtunnel allows the "form post" method, which means you can use it to login to most websites such as gmail or myspace, which is impossible from most free proxies.

Vtunnel also allows file downloads and no restrictions on features, which is rare for a free proxy service. To be less blockable and for increased security, Vtunnel also supports SSL via <https://www.vtunnel.com>
