# HotcakesCMS

Hits: 9,502

**Description:** HotcakesCMS is an intuitive, NZ developed piece of website software. 5 minute installation for a fully functional website.

Particularly designed with the small to medium businesses in mind as well as web developers, designers and technical people who want to save time developing websites for customers.

HotcakesCMS has a web based administration tool for easy editing of web pages, database information and shopping cart. It uses lightweight ASP and MS Access to keep the size of the source code down. Setup and release note documentation is well up to date if you have any setting up queries.

**Nice Looking Website**, Mar 16th, 2007

Reviewed By: katy8439

The site looks nice and it has lots of features. I was a bit disappointed at the lack of a Rich Text Editor for the page content though
