Dragable RSS boxes

Hits: 6,352

Description: This script shows RSS feeds from different sources inside draggable boxes. The boxes are created dynamically by use of Javascript.

Very Good Script, but with some minor bugs, Jan 19th, 2008

Reviewed By: rvdv12773

This is a very good script (though with some bugs (ie. wrong/deleted/non-existing RSS feeds). Also it would be 'handy' if you could add a 'Static box' (with other content than RSS) at run-time (and not only after window.onload) like the normal RSS-Feed boxes.

But still a very good script if the RSS part is the most important for you.
