Script Promotion Wizard

Hits: 5,566

Description: An automated script submission tool would be great, but because every script directory's submission process is so unique, automation is nearly impossible. So we built Script Promotion Wizard, a free tool you can add to your web site or use on a local server that will help you manage script promotion to script directories. With Script Promotion Wizard, you can save script profiles, and add addition script directories as you learn about them. The script is very easy to install and use, is completely free and contains no adware or spyware.
