textfileBB

Hits: 7,095

Description: TextfileBB is a feature rich text/flatfile forum unlike any you have seen before! Set users and groups, change permissions. Dynamic avatars and sigs, inboxes, postcounts for members and more. Create membergroups to group members on permissions, access rights, and/or appearance. Chose between full ban, 'no post' ban, or registration ban. (by setting permissions). Forum search is also included. For attachments, secure check on filetype by extention and not MIME and attachment Log Manager, see who uploaded what, where, and when. All the classic moderation of MySQL boards: Ability to lock and unlock a topic, Delete or modify posts, Move or delete topics, Sticky or unsticky topics. Users online bar, Total posts on the forums, and other statistics are displayed. Several security checks. Password reminder option, by email with confirmation. (doesn't automatically reset your password.)Cookie based authentication, with md5 sha1 password hash security. Try textfileBB today! FREE

Resource Specifications
