SimpleCycle

Hits: 712

Description: Are you looking for more web site traffic? Are you considering having webmasters place your banner on their site to generate more traffic for yours? Then simpleCycle is the way to go. This script allows you to customize banners for each of your domains. Example: You have 3 domains: Cars.Com , Trucks.Com, and Motorcycles.Com. You don't want Cars.Com's banners to show up on a motorcycle enthusiasts web page right? RIGHT! With simpleCycle you can customize the banners that belong in each domain, to help make sure that the traffic you get is coming a site that is associated with your own! Use these simple set of scripts to perform web based administration of your config files. The best part about simpleCycle is that you place the scripts on your server, and by using a template html file simpleCycle easily integrates into your existing content.
