Hits: 4,337

**Description:** Omnistar Mailer is a php web based autoresponder and email marketing solution that will allow you to setup and manage email list campaigns, customize html emails and setup a series of autoresponders emails to stay in constant communication with your customers. With Omnistar Mailer email marketing software you will be able to easily follow up with clients using autoresponder emails, track the success of each campaign sent by viewing detailed graphical statistics and personalize each and every email sent to your customers. The autoresponder software is designed to allow users of all experience levels to successfully setup and manage their email list campaigns through a clean administrative interface. Webmasters can even private label our solution, brand the product as their own and resell to their client base. Through the administrative interface, users will also be able to setup and customize their own newsletter registration forms using our easy to use built in form builder.

The Omnistar Mailer email mailing list manager and autoresponder software is a great way to manage your email campaigns and autoresponders. I have users sign up for my mailing list and as soon as they sign up I have it set so they get my emails automatically once a month. I just sit back and have the software do its magic.
