PimpFish

Hits: 870

Description: Grab, download, share and organize Flash, Quicktime and other video, pictures or files you find on websites in a single click. Use this Download Manager, IE or Firefox toolbar and FloatBar to grab movies, zoom pics in your browser and share stuff. Use PimpFish to create, download and share SLAPfiles which let you share downloads lists with just a single file. Downloads from Youtube, Apple.com/trailers and many more popular online video websites.
