**Description:** Once again, We have taken a project above and beyond the realm of the existing. This is our Ultimate TGP script set and as the name implies, it has no rivals. This program was designed from the ground up to do everything other scripts do, and then we added all the features YOU want in a TGP software.

Make No mistake. This is NOT just another TGP program. This includes the ease of use that so many of you have come to enjoy with our scripts. This also incorporates our own template engine as do most of our other scripts. What this means to you is that it is completely customizable from top to bottom.
