SuperPals

Hits: 579

Description: This script allows your surfers to place personal ads on your website, where other surfers can view their details. this is one of the better small penpal type scripts out there and has many features that most do not, such as an admin area that allows you to delete listings and mass email all users who have signed up. This script also uses a multi-page records viewer, allowing faster loading of the main listings page. The script is also 100% configurable in both layout as well as script output via the use of simple HTML templates. Allows admin to set whther surfer gets an email (for ads) after signing up, and if the admin gets an email when surfers sign up.

Resource Specifications
