CamGirlScheduler

Hits: 689

Description: This script was written for Venus at http://landofvenus.com and is still in full use there. The script does exactly what it says it does. It is a simple to use and maintain Cam Girl Scheduler for their websites. It allows for an unlimited number of girls, and keeps a global database of everyone using it that you can link to for some major league links for your surfers. The administration is simple and efficient and leaves nothing to the imagination. The whole script is template driven so you can easily make it look exactly how you want it to look. This allows for images to be uploaded of all girls as well as whether or not to have direct links to their sites or bios.
