# CFCMS mini cms

Hits: 1,731

**Description:** For everyone ( webmasters ) who control any homepage('s) it could be sometimes handy to edit the content quickly and easy. Now you can setup a CMS system to do this job but not everybody has the skills or the time to use such an tool.

For my own customers I found and developed a really simple solution to edit any content of an excisting website and very easy to set up.

This simple solution is now available for everyone !!

ADVANTAGE'S 100% xhtml output.( or choose for normal html output ) Works in IE, firefox and Mozilla ( for Mac OS X and windows). WYSIWYG editor is InnovaStudio Editor Copy and paste with word cleanup function Works with several languages ( available at this moment dutch,german en english) Can be used in (I)frames Auto safe\_mode check Database backup and restore function Background color can be changed so it looks like the cms belongs to the website Easy installation with example site
