Feature Rich eCard app, Aug 27th, 2007

Reviewed By: joy_unlimited

Easy install, admin interface has many options and you can edit templates there. There are many customization options but you should be decently knowledgeable with HTML, CSS and comfortable with editing PHP. The developer gives support in his forum.

Easiest eCard Greeting system, Nov 16th, 2007

Reviewed By: ron351

Maian Greeting card system is the easiest system I have tried so far to setup, and installs very easy with minimal input needed to complete installations. Many admin settings which are easy to configure in the admin section. Script runs very good on my server. Simply put, Maian scripts are my favorites.
