iAuto Auto Classifieds Software

Hits: 13,275

Description: iAuto is a cutting edge SEO-friendly PHP auto classifieds script with multi-language user interface. It is a perfect solution for websites that sell vehicles for land, air, or water (boat classifieds version of iAuto is available). Key features of iAuto: SEO-optimized URLs and content, multi-language capabilities (XML lang file export/import), videos and image uploads, great ad search and browsing capabilities, editable look and feel (SMARTY templates) and code, multiple listing types (cars, boats, airplanes), user groups (individuals or dealers), pay-per-ad or subscription plans. Several payment options: 2Checkout, Paypal and Authorize.NET (can code custom payment gateways). Template and code customizations are available for additional cost.

iAuto is a really powerful classfields script. I use it for over a year for my business with great success. They recently released version 4, which introduces a user-friendly environment, with many different options for payment and a plethora of new features such as membership plans, redesigned templates and a powerful search engine. Their customer service is quick; they always reply within 24 hours and they really investigate bugs or issues, if they arise. I would highly recommend it!
