iDC File Manager - Pro Version

Hits: 1,380

Description: iDC File Manager - Pro Version is a powerful multi-user web based system supporting up to 25 user accounts allowing you to store, manage and distribute every format of digital media, including, documents, images, audio, video, publishing layouts, presentations and PDF files.

If your company has a requirement to distribute or share files with customers, suppliers, remote workers or just internally, then iDC File Manager is the best solution for you.

It supports the storage and distribution of any file type and can be installed and running on your server within 10 minutes. Once installed you can then create secure user accounts with individual user permissions, permitting access to specific file locations. This will then allow your end users to remotely access your documents from anywhere in the world 24 hours a day, 7 days a week.

It really is that simple!
