# Revolver

Hits: 17,977

**Description:** Revolver can be used as a clean, simple way to showcase a design portfolio, sketchbook, photoblog, or simple image gallery. Uses abound. Be creative, invent your own. You'll need a web server running at least PHP 4.0, an FTP client, and your imagination. Just upload a new image to your Revolver images folder via FTP following the Image Naming Scheme. That's it! ( Script by Tubatomic Studio. )
