# FAQ Maker Script by lphat.net

Hits: 5,350

**Description:** FAQ Maker Script Features:

- Easy 4 Step Installation Process

- Web Template Compatible

Once installed you can make the faq site made by the package look just like the rest of your website does by simply editing the Template Header & Footer entries.

- Uses an Editable Language File

The site gets all of its text to display on the web pages from a language file that can be easily edited to translate the package into any new language or simply perfectly match the package to your site even in the way you speak!

- Complete Admin Area

You will have full control of your faq site thru the super simple to use web base administrative area which comes built in to the package.

From the admin area you will be able to add, edit, and delete questions. and you will be able to control all the settings related to your faq site.

- And More

Simply click on the "Visit" link to either get yours or to see the demo we have setup of the script.
