GOGO Picture Viewer ActiveX Control

Hits: 737

Description: GOGO Picture Viewer ActiveX OCX is a powerful ActiveX Control, which is intended for work with image data. You can view and save images of different formats include Bmp, Gif, Jpeg, Jpg, Png, Tif, Tiff and multi-page Tiff images. Save Jpeg image files with user-defined quality level. Rotate, flip, stretch to fit, shiftX, shiftY, zoom-in, zoom-out, zoom-to-fit and resize the image. You can also draw text, convert color to gray scaled, black-white and print the image. You can set the image alignment, background color, background style, foreground color, border width, border color, text color, text font and the text size.
