Anvsoft DVD Burning Xpress

Hits: 663

Description: DVD Burning Xpress is a DVD authoring tool combined with video editing and DVD burning. It transforms raw videos into professional-looking movies and burn them on CD or DVD disc. With DVD Burning Xpress, you can capture video clips from your camcorder, edit your home movies right on your computer and turn your digital media into memorable projects on CD or DVD to share with family and friends.

Resource Specifications
