College Proctored Testing Center - Online Web Application

Hits: 1,958

Description: If your institution offers proctored testing (i.e. for online, hybrid, WebCT, Blackboard, or distance learning courses) then this web application might be for you. This web app. completely automates your campus Testing Center processes and procedures. It will utilize any real-time student courses databases. Even teachers or faculty who teach distance learning education have a simplified, online interface in which they create their proctored tests and exams, and the rules that go along with them. Includes custom reporting tools.

Resource Specifications
