# A Simple Search Engine Tracking Tool

Hits: 881

**Description:** How often are search engines visiting your site? Is your content worth indexing? Let this simple tool track inbound unique search engine visits. Easily identify how people are finding your site and easily search those results. Create custom filters to easily identify and track inbound search engine or unique traffic to your site. This tool will easily allow any site admin to justify more or less adword budgeting for your content.

We purchased the Search Engine Tracker and installed it very easily, 1 simple file in our index page. We have been running it for just 1 day and I can't believe how much information it has already give us. Very impressive simple system, good company too.
