# Fast Track Sites Trouble Ticket System Pro Edition Hits: 2,818

**Description:** Costing only \$8.00, the professional version of the highly popular Fast Track Sites Trouble Ticket System is extremely affordable. This new and improved version has a large amount of features including: a better GUI, User Administration, custom problem categories, emailing options, and much much more. This version contains a completely redesigned User Interface, and the underlying code has also been reorganized to allow you greater control over your customer's tickets, and also makes it a better experience for them by allowing them to easily see which ticket are open or closed, and also when they were updated. The new design of the Fast Track Sites Trouble Ticket System Pro Edition also allows for easy changes to it, the stylesheet has been redone for ease of changes.
