## EZ+Add Websites

Hits: 787

**Description:** EZ+Add employs easy-to-use interfaces for quickly adding pages and editing content on your website. Preview your changes in real-time to see what your form will look like. Use the editor to create HTML, without writing any HTML. Paste Microsoft Word directly into the editor, or use the intuitive editor toolset similar to the email editors of AOL, Yahoo, or Hotmail. Designing and coding HTML websites with popular features like forums, galleries, and calendars are time consuming chores. Using our EZ+Add website software and in-depth support resources, you can get your website on-line faster than ever before.

We've also developed add-ons app that will help realtors, boat brokers, auto dealers, and small store owners.
