JavaScript Spell Check - Spell Checking for Website Forms. AJAX Compatible Hits: 4,687

Description: JavaScript Spell Check is a comprehensive spell checking component for JavaScript. JavaScript Spell Check is compatible with AJAX, ASP, ASP.NET, DHTML and WC3 HTML and XHTML. It is also compatible with almost all modern web browsers. A Free Trial is available to download.

SPELLCHECKER DIALOG: A SpellCheck Window similar to that in Microsoft Word. This is ideal for spell checking website forms and data entry, intranets, rich editors and CMS.

AJAX SPELL CHECK: A fully featured Ajax Spellchecking API.

SPELLCHECK() FUNCTION: function added to JavaScript to allow realtime spell checking and suggestions. **INTERNATIONAL:** Java Script Spell Check provides international spellchecking in 11 languages - including English, French, German, Italian, Dutch, Portuguese. You can also add your own custom dictionaries.
