AltraSoft AskMe Pro - Run your own Google Answer

Hits: 1,472

Description: AltraSoft AskMe Pro is the perfect expert knowledge management system that allows you to run your own highly profitable expert advice service just like Google Answers. Give your users an alternative and easier way of getting expert's advice. AskMe allows your users to post questions and set the question price, experts will then reply with the answers and users will send payment in order to view the answers. You earn money whenever a question has been successfully answered. AskMe is paypal integrated and 100% template driven. Great for existing sites looking to add value for their members as well as building up their community or site owners looking to start their own niche expert advice service.

Bought it, very dissapointed.

-Paypal system not working
-member poinst system failing

Tried to contact the company, no replys..

Had to hire a programmer to fix it.

Very buggy

Their homepage says it all:

NO SUPPORT - phone is off the hook, live support is always offline, very late and useless email resonses.

Software sucks - pieced together from other scripts, after you make your purchase you receive a script that has NO documentation, no instructions, a install file that does NOT work with no error reporting, no manual install instructions and NO help at all from the company.

overall this script deserves a 0 out of 5
