The looks of this script is very nice looking. Its fits perfect in my website and I have used it on several pages. The administration is very simple, so all can be done without any technical knowledge. I recommend this script to anyone, its free so why not :-)

Great Gallery Script!, Jun 1st, 2006

I was looking for several months for a good but simple script with not too many options. Finally I found Luna and I will never use any other again.

I swear by this gallery, Jun 4th, 2006

I added this gallery script to my website and now have it running on different sections without huge server load. Already I get more pageviews on my website because of this great script cause my clients give me compliments about my good looking website.
