## Mail Contacts Importer

Hits: 971

**Description:** You've seen it on MySpace, Friendster, SMS.ac and many other big websites, a function to import mail contacts (addressbook) from Yahoo, Hotmail and Gmail. Now you can have it in your website too!

Unlike similar products, we don't charge you per service (Yahoo/Hotmail/Gmail), but we offer them all in one! All of the services for only € 15!

Check out the demo at our site.
