**Good Script - Bad marketing**, Dec 2nd, 2006

Reviewed By: loukoum

I really don't want to write a negativ review for this one but Ignatius gives me no choice. All the other apps that I looked into declare that the "safe\_mode must be off", after reading in the requirements of this one I decided to buy it because I didn't se there was any need for the safe\_mode to be off. Well this is not true and Ignatius refuses to either recode some lines or pay me the money back. This is a BAD WAY to lurk the customers. Disapointing!!

**Easy Photo Store**, Jun 18th, 2006

Very Easy to install, Works Great, Very Resonably Priced, Customer service is very fast and very curtious. Couldn't ask for a better piece of software at such a resonable price.

**EasyPhotoStore**, Jun 22nd, 2006

EasyPhotostore allow all phtographers to sell their photos very easily on the web. The script was simple to install but need some adjustment dependant of the kind of server you are on. Register\_global has to be on and a simple .htaccess will make it possible. The script is very efficient, simple to setup and most of all you don't have to spend a fortune !

I recommend it to every person interested to sell photos on the web. Good script, good price, good help. Try it !

**Easyphotostore**, Jun 28th, 2006

Reviewed By: roland49

Contrary to my previous review about easyphotostore, i just have to say that the help to the customer is very bad. Two times I sent a request for help and I never received an answer ! I also email the seller and told him that I was deceived by the kind of NO SERVICE or HELP offered.

All the problems were solved using my own knowledge of scripts. Then, buy the software if you want but don't count on their help.

LOST MY MONEY !

**Great Script with Great Support**, Jul 7th, 2006

I honestly like the Bulk Upload the EasyPhotoStore gave me. I can easily upload 1500 photos to my community photo gallery page in just several minutes. So, I think this is a nice script to have in your website. Thanks, EasyPhotoStore!

**Nice software to sell photos**, Aug 17th, 2006

Reviewed By: stanleylee999

I like using EasyPhotoStore, it is easy, fast and affordable. I used EasyPhotoStore to post my thousands of photos. It is so easy using EasyPhotoStore, and only within minutes I can upload them all into the system. With the support of Online Ordering, now I can sell my photos worldwide .. Very Easy!

**Great Product for PhotoGrapher**, Sep 1st, 2006

Reviewed By: waynereaud

EasyPhotoStore is the best gallery software out there, hands down. It's wide range of features, ease of use, simple setup and administration, and flexibility sets it at the top of the heap. With the ability to setup customized categories with sub categories allows you to create a well organized directory. Uploading images either one-at-a-time or by using the bulk upload feature makes stocking the gallery very easy.

**Disappointed**, Oct 20th, 2006

Reviewed By: rayvision

It looks good at first glance. I cannot recommend this product. You should only consider installing this on a server that Ignatius recommends, not on your own or a shared server. The code is now obfuscated. The first copy I got was not and I was able to tweak its performance. The second copy had the system files locked! How much GPL code I do not know... The responses from support were often "what was the login information again?" even though the email thread was attached. What a shame.

**It has a really nice slide shows**, Jun 9th, 2007

Reviewed By: markgresshner

As a professional wedding photographer, I really need to present my photos to the client in nice presentation. I found EasyPhotoStore with its stunning gallery slide shows do the work for me. The gallery slide shows really makes my website look professional!. And I got a lot of comments from my clients telling me how nice my website is! Thank you EasyPhotoStore Team! Best Regards, Mark Gresshner from Canada

**Like EasyPhotoStore so much.**, Jun 10th, 2007

I am using EasyPhotoStore to sell my pictures as downloadable files. The newest version of EasyPhotoStore even gives me everything I need. It takes care of the whole process and you only need to get the money only from paypal. Nice tool. I thought it will be difficult to sell photos on the internet, but I think I was wrong! EasyPhotoStore does it all for you. Nice work!

**I love the Slide Shows**, Jun 15th, 2007

Reviewed By: andrewmckline

I really think EasyPhotoStore is well equipped with a great slide show gallery. As a wedding photographer, I really need a fast way to put all of my photos online. I found out EasyPhotoStore gives the easiest bulk photo upload. Nice one! I only need several minutes to show the world my photos! And most importantly, I like the slide shows. They are so smooth and professional for me. Great work EasyPhotoStore team! Thank You, Andrew Mc Kline

**It is very easy to use**, Jun 18th, 2007

Reviewed By: rickharmon82

When I install EasyPhotoStore for the first time, I found that the installation is easy as described in their install guide page. And I like the new photo basket which gives me a lot of flexibility in managing the photos. Very easy to use. I recommend this software for all. Thanks!

**It is easy to manage the photos**, Jun 24th, 2007

Reviewed By: simonforth

As a photographer, I sell some limited edition photos to my customers. It was really easy to upload all of my 2793 photos to EasyPhotoStore. Even, it is so easy to edit the pricing for my limited editions and they work like a charm! More importantly I like how the new watermarking system work. It really enhances my website out from the crowd. Great software! I recommend it for all.

**Potentially Good, CPU Hog, Poor Customer Service**, Nov 24th, 2007

Reviewed By: ciph102

This software has potential but it is lacking, but for the price the value is good except for a few major things. First the software is a VERY HEAVY CPU USER. I had to upgrade to a "High CPU Usage" server just so it could run properly. Two, I made a change through the control panel to the customer order email and it messed it up and third the customer service is atrocious, it takes 3 days + to get a response and then you just get, a "you must have done something wrong, reupload the files."
