Search a lot for a bloghost script. All were too expensive or too less features. This one provides all I need. Ready to go!

### **Easy to handle blog**, Jun 11th, 2006

this is a really great script. the features that are build in can be handled very easily by me, so i guess for everyone cause I'm not a technician at all. this makes it more easier to get it running and make it interesting for other people to visit it who want to set up their own blog at my site. I recommend this blog script to anyone.
