My Game Script - PHP Flash Game Arcade

Hits: 7,410

Description: My Game Script is proud to release our new, low priced and powerful PHP flash game arcade. Every page has been search engine optimized and with our well structured design, your website should hit the top search engine key phrases in no time.

Our unique, feature packed and flexible arcade script offers the same options as many other flash games scripts for a fraction of the price. Your downloads can be accessed instantly with the membership details sent to your paypal email address.

We offer two arcade script packages. To view the details of each of our packages, please view our website. Our basic package offers you an "empty" flash game arcade for \$14.99 and our standard package comes with 315 flash games and our basic script for just \$24.99. Set up is easy and our packages include a set by set installation guide.

Purchased the top level package with over 2300 games preinstalled.

The only problem with getting it running correctly was with my host, not the script.

When I contacted My Game Script about the problem, they were able to resolve the problem straight away.

Whilst the look of the site is not my preference, that is not a problem as we all will want our site to be individual don't we.

Fantastic service and backup. I highly recommend this script to all and this Company to all
