Smart Publisher

Hits: 3,100

Description: Smart Publisher is a open source web-based application which helps you to publish a static or dynamic website on the internet. A useful tool for big companies of internet application production, but also for web developers. Transfer quick and easy a website from a local system (developer server) to a remote system (production server) on internet. Compare & Upload files and database diffs (MySQL) between local and remote systems.
