eStudent Progress

Hits: 5,722

Description: eStudent Progress (ESP) is a very powerful stand-a-lone web-based software packages and was specifically designed to improve communication between parents and school also daycares. ESP notifies parents about the progress of their child in school and information is sent via email and (SMS) cell phone text messaging. ESP was designed by a parent, teacher, and school administrator and it covers everything needed. Parents want it, Teacher's need it and School must have it!

* Alert parents of student progress or problems and school announcements via email and text messages. * Post homework, projects, activities, programs e.g. Basketball...and events online. * Grade Book * Billing * School Scheduling * Track school attendance and student checkouts. * Voice Broadcast system to call parents incase of emergencies or for other announcements. * Parents and teachers can send and receive private notes. * School weekly lunch menu can be posted online.

Reviews for eStudent Progress

Excellent!, Nov 12th, 2006

Reviewed By: Itcaschurch

We have used this ESP for almost 3 years and will not operate our school without it. We have practically eliminated all communication problems between parents and teachers and the school. This year has been no complaints regarding communications. I love the reminders notices, and use the voice broadcast for school closings. Also parents love the daily email progress status. We have tried others but love eStudent Progress. Great Support too.

Excellent Product, Nov 13th, 2006

Reviewed By: elliston

We purchased eStudent Progress late last year and start using 2006-2007 school year. This is an excellent product and well worth the price. Our teachers and parents really love this software and it is easy to use. The software was easy to install and I have recommended it to my colleague during a recent convention. If you want to solve the communicate problems between school and parents—you won't find a better choice. The management features are also great.

Great Software, Low Cost- Extremely Happy!, Feb 12th, 2007

Reviewed By: marshcapital

We start using eStudent Progress at the start of school year 2006, and the results have been totally exceptional. With over 500 students at our Catholic school, parents love the easy of use and information via email or SMS messages. Communication problems between teacher and parent no longer exist. The homework and gradebook system are great. We use the total package; there is not another system that works this great for the cost. We would have paid double for this system.

Exceptional Software Solution!, Apr 24th, 2007

Reviewed By: salesian

We love this software program. It is affordable and extremely reliable. We have been using this software since September of 2006 and have improved our school communication 100%. Our parent love it and teachers find this solution easy to use and not tedious. I highly recommend this software for small schools because it is excellent and priced just right. Actually it is designed for small independent schools. Thanks eStudent!
