AV TV

Hits: 3,723

Description: AV TV Broadcaster is a Macromedia Flash based enterprise Web Application that allows multiple users live and prerecorded audio/video entertainment. AV TV Broadcaster is a perfect way enrich your website with sticky content that will keep your users online longer and always coming back for more. Choose from your content or ours.

AV TV Broadcaster is completely customizable and integrates seamlessly with existing client database and all scripting languages including PHP, .NET, ASP, ColdFusion, CGI, JSP, etc. Cross platform support

New Feature: We can now provide you with a downloadable .exe file to watch AVTV directly from your desktop. Ask us how!

- * Improve Guest-To-Paying Member Conversion
- * Increase member retention and users online time.
- * Multi-Language Support for most languages.
- * Customize color to match your site.
- * Dedicated and Monthly options to buy available.
- * No contracts.
