## PHP-Nuke Chat Module- by 123 Flash Chat

Hits: 2,865

**Description:** A chat room may be a good idea to boost traffic and keep loyal members. Why? Because it makes the PHP-Nuke website more interactive and shorten the distance between your website visitors. With PHP-Nuke chat module, websites get a live chat room with PHP-Nuke database seamlessly integrated, simple, secure and nice looking with full chat features. The chat button is suggested to be inserted to the module section and block section too. The key technology is the integration and auto-login features. The following live chat data can be displayed in PHP-Nuke front page, block section: \* how many people are connected to the chat server, \* logon chat user number, \* chat room number, \* chatting user name list in all chat rooms.
