IP-Admin - Centralized IP Address Manager

Hits: 1,386

Description: IP-Admin Centralized IP Address Manager, is web-based enterprise IP address management solution allowing administrators to take control of their IP network. Keep track of your IP address assignments with an easy to navigate interface. Organize by geographical location or by any format that will suit your needs. You now have the ability to easily create and assign subnets to a department or perhaps an office in another location. With its built-in Ip Subnet calculator, SNMP and ICMP tools, you can easily break down your subnets using CIDR(Classless Inter Domain Routing) blocks and determine network and broadcast addresses along with the total number of usable IP addresses.

Reduce the time and cost associated with managing your IP environment. Allow IP-Admin to help you automate the task of subnet allocation and assignment of ip addresses.

Resource Specifications
