AspEncrypt

Hits: 2,960

Description: AspEncrypt is an Active Server component that brings security to your application through encryption. With AspEncrypt, you can encrypt data, send S/MIME-based secure mail, compute one-way hash values, generate and verify digital signatures, issue and manage X.509 digital certificates, and more. This component can be used in an IIS/ASP or VB environment.

Resource Specifications

Version:	1.1
