# Flash Web Poll

Hits: 22,163

**Description:** Flash Web Poll is an online poll product that allows you to quickly and easily create a multiple-choice polling question and then publish it to your website. It takes less than 3 minutes to have an online web poll on your site. When creating a poll you can design your own color set so the poll perfectly matches your web site colors. You can configure the poll to accept multiple or single votes for each visitor.

### **Best Poll Script Ever!**, Jul 29th, 2007

Reviewed By: cytegi

Your search for a reliable, low cost poll script ends at Flash Web Poll from PHPJabbers. First, it's a Flash based poll that's easy to install. Secondly, an easy admin panel allows you to customize it, change voting stats, disable multiple vote and more. Thirdly, add multiple polls on a page-just insert the code it generates AUTOMATICALLY where you want it. Fourthly, it can be installed on unlimited sites. Lastly, it is SECURE- some poll scripts have known vulnerabilities. A++ all the way!
