Sell Downloads with Paypal and Moneybookers

Hits: 2,750

Description: With Sell Downloads Easy you can sell e-books, music files, images, and any other type of digital goods. We help you to sell downloads using Paypal and MoneyBookers, including secure file hosting and no transfer limits, while facilitating instant and automatic downloads.

How works? It's easy:

First:

Your customers click on the buy link on your web.

Second:

Your customer is transparently redirected to Paypal or MoneyBookers.

Third:

After payment is done, a transparent Paypal IPN verificacion or MoneyBookers Status notification is sent to SDE.

Fourth:

SDE send an email (you can personalize it) containing the download link.

Five:

Instant download is offered to your customer from SDE, and after download the customer returns to your site.

That's all.

Resource Specifications

Version:	3.0
Platform(s):	linux, windows, freebsd, osx, sun
Date Added:	Jul 30th, 2006
Last Updated:	Feb 9th, 2008
