Smart File Download

Hits: 10,296

Description: Smart File Downloader will help you to avoid direct files downloads (hiding real file paths), limit downloads to only some set of file types, and protect from hotlinking.

Features:

- * customizable allowed file types for download
- * predefined mime type settings for following extensions: zip, pdf, doc, xls, ppt, exe, gif, png, jpg, mp3, wav, mpeg, mpg, mpe, mov, avi
- * Script can log downloads in plain text file. Log file includes: IP, date/time, filename. Can turn this feature on/off.
- * automatic mime type detection (if Mime-type or Fileinfo extension installed on the server)

Resource Specifications
