Thanks for making this. Very useful. I am quite new to PHP, but when using the form, a copy of the message is supposed to be sendt to the sender. This functions doesn't seem to work. But maybe I am doing something wrong. Otherwise it works excellent. Eddie.

My mistake .., Aug 9th, 2006

Reviewed By: Eddie67

Regarding previous rating from myself: The function of sending a copy to the sender IS working, it was marked as spam in my email. I did not check. Sorry, my mistake. So EVERYTHING is working very fine. Ed.
