# Dynamic Flash Menu

Hits: 5,750

**Description:** If you have a headache of traditional and static menus, and you want to something dynamically and attractive, the flash menu is a perfect choice for you. Exactly this tutorial will teach you how to create some very cool and attractive flash menu using Action Script. This tutorial is very complicated for explanation, but I'll try on to explain it on the best way I can. So, I have used a lot pictures.Go!
