# MyUploader

Hits: 5,859

**Description:** MyUploader is an easy to use Java applet for uploading files and folders to an ASP server using the http protocol (RFC 1867). No Java knowlegde is needed. Uploading files bigger than 1 gigabyte is not a problem. With drag and drop you can easily upload hundreds of files within seconds. During file upload a progress bar is visible.

## Reviews for MyUploader

**Slow**, Oct 20th, 2006

Reviewed By: MacAries

MyUploader is the slowest Java based applet ever.

a 2.6MB file will take over 2 minutes!!! Also so much new Sun active scripts to run just to get it to work why bother
