css & javascript file compression

Hits: 1,074

Description: Comments and whitespace characters are vital to enabling us to develop and maintain our web projects but they can also be a drain on our bandwidth when our projects move from development to production. This online tool allows comments and unnecessary whitespace characters to be removed without breaking the functionality of the file.

By using this tool you can get the most benefit from your available bandwidth.

Resource Specifications

Version:	1.0
Date Added:	Aug 3rd, 2006
Last Updated:	Dec 20th, 2006
Author:	Jonathan Street
