Dr.Explain

Hits: 690

Description: Write software help and documentation fast and without exhausting text and image formatting. Dr.Explain captures windows from a live application , creates screenshots and automatically adds references to all window's controls : buttons, edit fields, radio buttons, dropdown lists, and other items. Just add some description. Export a project at once into RTF, CHM, or HTML help files with screenshots, color callouts, menus, and index page.

Resource Specifications

Version:	2.6.102
