Absolutely impressed, Nov 1st, 2006

I was totally impressed by how much features video share enterprise has to offer especially their flashads plugin that allows my video site to support video advertisements (my advertisers have been dying to requesting this for ages). This is certainly worth every penny I have invested on their product. Great work and great product and this is worth recommending to anyone who intends to start their video sharing site

Alstrasoft really did a great job setting up the site with the server modules in a record 3hrs+ right after I have ordered the software after a phone conversation with their staff. Not only do they have friendly staff on the phone, the functionality is top notch compared to othe similar video sharing solutions in the market and I must say that you guys are the greatest and probably the best out of the several software companies I have work with for the past 2years.
