City Guide

Hits: 5,182

Description: A full suite of city guide software to accommodate all requirements. Complete feature set allowing for any city guide site to exceed the standards your visitors set when submit events on a city guide site. The design flexibility in the software is unmatched, allowing the administrator to change a city guide site in minutes.

Users can submit events with photos, preview event and photo; password protected editing, renewing, deleting of events by owners; powerful search abilities; optional moderating of events by administrator before posting; custom multiple categories and event fields; and powerful admin web interface.
